I believe we are all exceptionally lucky to live in a place like Denmark; I support all actions in the Shire that contribute to current & future sustainability for its rate payers & visitors (financial, personal/family wellbeing & environmental); I propose to offer a continued & growing representation for community in areas such as (but not limited to) family wellbeing, local business, heritage, environment, & development; Current societal challenges continue to grow. My wife Hiroko & I, like many others in Denmark understand/experience this daily, balancing family/work/small business.

As a councillor my appreciation of this & in particular its impact on the Denmark community is paramount.

I am trade & tertiary qualified (business, politics & writing). Working in small business, corporate & with governments; many years overseas; has all contributed to my inclusive mindset.
