

# Exploring the Wilson Inlet foreshore

**FREE GUIDED WALK** along the  
**Wilson Inlet foreshore**

Wilson Inlet is a rich environment supporting abundant birdlife, fish and other estuarine species. Come along to explore the secrets of fringing vegetation and its importance as habitat. Discover the plants and birdlife that inhabit the inlet foreshore, with participants invited to learn how to act as custodians for this special ecosystem.

**Presented by South Coast  
Bushcare Services**
